Manage your entire retail and food service business with one powerful platform

Still using many soft ware solutions to manage the various processes in your retail enterprise?

It's time to upgrade to LS Central,
the unified commerce software that extends Microsoft Dyanamics 365 Business Central, Microsoft's #1 ERP solution, with advanced retail functionalities.

LS Central + Business Central = a unified solution

Say goodbye to integration issues. Business Central and LS Central work as a single software, with one common environment. All your information is collected in one database and flows seamlessly, and automatically, between Business Central and LS Central and back. No work needed from you.

Say goodbye to disconnected systems, and
Hello! to clear information and great
user experiences.

Unify online and physical stores

Deliver a consistent experience across channels, and manage in one platfrom sales, inventory, prices, campaigns, offers and more for your physical and online stores.

Unify processes and software

Stop doing the same work many times on different systems. Get in one single platform financials (the Microsoft ERP), Point of Sale (POS), store operations, supply chain management, inventory, eCommerce, and customer loyalty.

Unify information

Stop wasting hours looking for information across different databases. Get a single point of truth about inventory, operations and customers, and access data analytics and sales from anywhere.

Get all the advantages of the cloud and none of the risks

LS Central is available as Software as a Service(SaaS), hosted in the highly secure and reliable Microsoft Dynamics 365 cloud.

Your last upgrade. Forever. LS Central is always on the latest version, automatically.

Add extra functionality, easily. Stay agile and quickly deploy new capabilities.

Always be selling. Unlike other SaaS POS software, the LS Central POS also run offline, so you can always be operational- even when your connection goes down.
